PRODUCT DESCRIPTION

Designer: Patrick Norguet

Artemide Giò Light Cluster

Timeless and non-obtrusive, the Gio Light Cluster has a simple and minimal shape which brings an emphasis to the light itself. Equally suitable for all interior spaces, either residential or commercial. Patrick Norguet focused on the motto 'make more with less' when he envisioned the Gio Light Collection. The pendants are available in black or white.

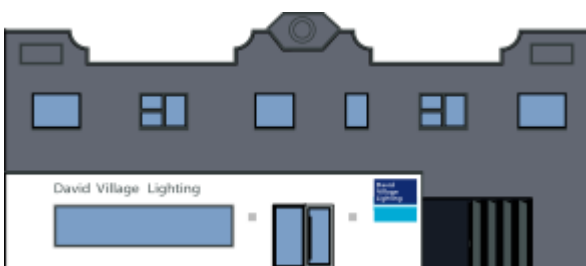

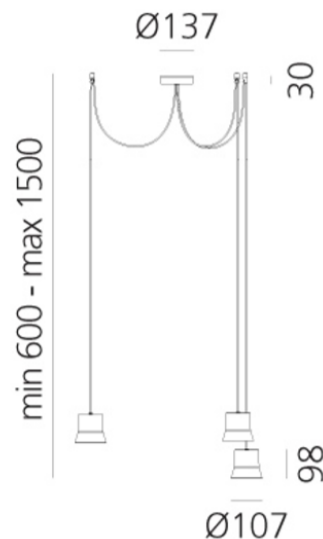

The Gio Light Cluster is comprised of three Gio Light pendants and offers off-centre installation, meaning you can adjust the height of each pendant. These features enable the user to create their own unique installation in the room. The Gio's shape was designed as such, so as to maintain the light quality and was created to light up any space. The Gio Light Collection includes a singled [Gio Light](#) pendant and the [Gio Light Decentrata](#) with the off-centre feature.
