## PRODUCT DESCRIPTION

Designer: Antoni Arola

### Vibia Palma 3714 LED Wall Light

An elegant design by Antoni Arola, the Vibia Palma 3714 LED Wall Light combines nature and light. The elegant form utilises a floating spherical glass diffuser and a lower hemisphere designed to be used as a plant pot. The premise behind this unique wall light is to bring the outdoors inside and combine lighting and plants to create a calming environment. Thanks to the glass diffuser, the Vibia Palma LED Wall Light produces a warm but functional glow that can be easily dimmed to further personalise the atmosphere.

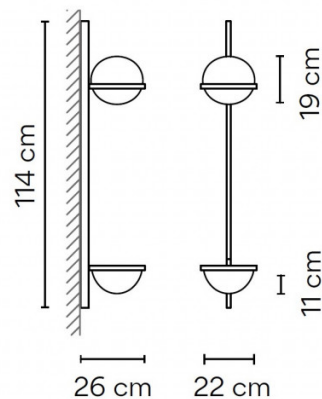

The Vibia Palma LED Wall Light is a beautiful addition to kitchens, entryways, hallways and bedrooms. It can also be displayed in multiples for larger commercial spaces. They are particularly popular for shops, salons and environments in the wellness sector such as gyms and spas.

**The Vibia Palma 3714 LED Wall Light can also be supplied with two light sources, using one to replace the plant pot. Please [contact us](#) for more information and pricing.**
