PRODUCT DESCRIPTION

Designer: Folkform

Orsjo Belysning Skyline Hard Wired Wall Light

The Orsjo Skyline Wall Light was originally launched at the Stockholm Furniture Fair, designed by Folkform and inspired by the architecture of different suburban districts of Stockholm. The Skyline light resembles a floating city with its geometric design, this futuristic style is guaranteed to turn heads.

This light creates a perfect ambience for public spaces such as restaurants and bars due to its warm tone and soft light dispersion. It would also be a classy addition to your dining room or kitchen.

The materials used to create this light are untreated to allow the piece to age gracefully, creating a beautiful oxidised surface over time.
