### PRODUCT DESCRIPTION

**Designer:** Tom Dixon

### Tom Dixon Melt Mini LED Surface Light

Compressed, squeezed, distorted and squashed into a flatter shape, Melt's astonishing glow has found new uses on walls and ceilings. The Tom Dixon Mini Melt LED Surface Light is unmistakable with its metallised effect; this latest development of the Melt is now designed to be mounted on any wall or ceiling, providing subtle ambient lighting, perfect for hallways, entryways, kitchens and living rooms.

A new opal finish was introduced in 2024, avoiding a metalised finish and instead opting for a subtle finish that is reminiscent of natural pearls. This variation is available with either a silver or gold wall mount. The [Tom Dixon Melt Collection](#) also includes pendants in two sizes, multiple canopy options, a floor lamp, table lamps and portables. Also available in a [larger size](#), this Mini Melt Surface light can be used independently or alongside its counterpart.

**Please Note:** The integrated LED light engine of the Mini Melt Surface Light is replaceable. This can only be sourced via Tom Dixon. Please [contact us](#) for more details and pricing.
