PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt Mini LED Surface Light

Compressed, squeezed, distorted and squashed into a flatter shape, Melt's astonishing glow has found new uses on walls and ceilings. The Tom Dixon Melt is unmistakable with its metallised effect; this latest development of Melt is now designed to be mounted on any surface as a wall light. Also available in a larger size, this Mini Melt Surface light comes with a custom-made LED ring, made by Tom Dixon.

A new opal finish was introduced in 2024, avoiding a metalised finish and instead opting for a subtle finish that is reminiscent of natural pearls. This variation is available with either a silver or gold wall mount. The Tom Dixon [Melt Collection](#) also includes pendants in two sizes, multiple canopy options, a floor lamp and wall lights.

The integrated LED light engine is replaceable. This can only be sourced via Tom Dixon. Please contact us for details
