PRODUCT DESCRIPTION

Designer: Svend Aage Holm-Sørensen

Warm Nordic Lightsome Wall Light

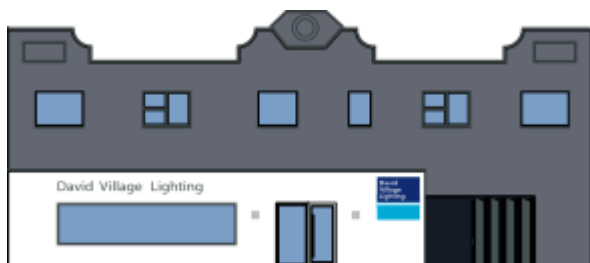

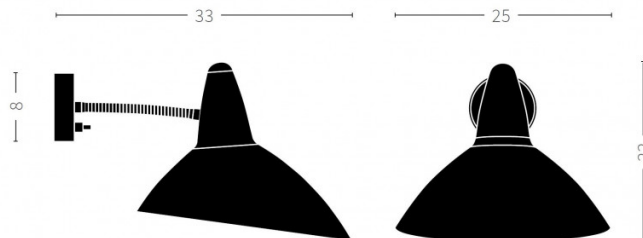

The Lightsome Wall Light was designed by Danish designer Svend Aage Holm-Sørensen. Since its conception in 1959, The Lightsome proved consistently popular. However, before Warm Nordic re-released the product it was only available for keen collectors willing to pay for vintage pieces when they appeared in auctions. The Lightsome Wall Light showcases many of Holm-Sørensen's signature design quirks. The shade features grooves along the upper section which can often be seen in Holm-Sørensen's designs. These grooves add a touch of detail to the piece as well as allow light to escape creating a delicate pattern of light in the shade. The brass stem is an ornate detail and appreciation of the metal, a subtle nod to Holm-Sørensen's time as an ornamental metal worker.

Lightsome is a timeless wall light and an elegant addition to the home. The downward directional light makes it perfect for use as a reading light beside a bedside or reading nook. The Lightsome Wall Light is available in three gentle finishes (Warm White, Black Noir, and Pure Cashmere) all of which will add a subtle decorative beauty to any interior. This wall light cannot be hardwired into the wall but instead includes a cable and plug which needs to be plugged into a socket on the wall below. This is a classic feature of Scandinavian wall lamps which are rarely hardwired.

PRODUCT SPECIFICATION

- Light Source:** 1 x Max 25W E27 (excluded)
- IP Code:** 20
- Dimming:** Integrated on/off switch on the product.
- Dimensions:** Width: 25cm
Depth: 33cm
Height: 22cm
Cable Length: 300cm
