PRODUCT DESCRIPTION

Designer: Piero Lissoni

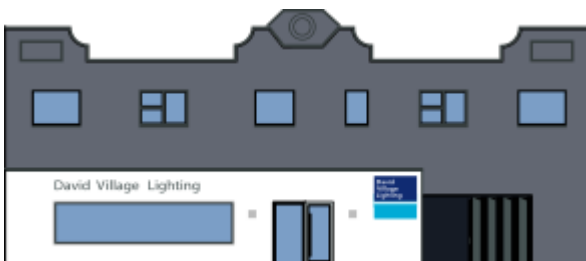

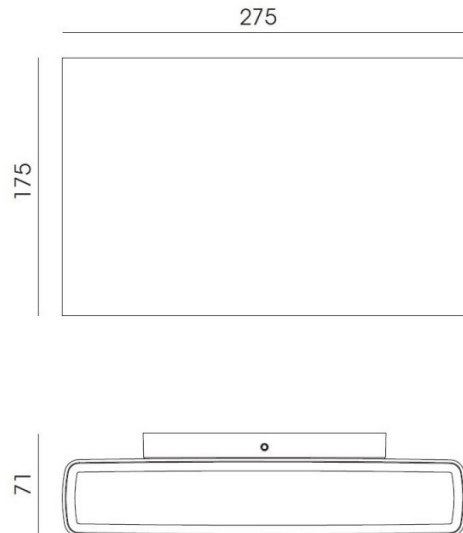

Climber 275 Down LED Wall Light by Flos

The Climber 275 Down LED wall light is perfect for any garden setting or just about anywhere around your home. The direct downlight, protected by a shutter so as to not allow for any glare, is great if you have something to highlight or draw the attention to, but works equally as well as general lighting if the 72° beam angle is chosen.

The [Climber Collection](#) gives you the choice between different colours, beam angles and colour temperatures to suit individual needs. Available in six colours; white, grey, black, forest green, deep brown and anthracite, the Climber 275 Down wall lamp also comes in a choice of two beam angles, 16° or 72°. Also choose between a warmest white (2700K), warm white (3000K) or cool white (4000K) colour temperature.
