La Plus Belle LED Mirror by Flos

This product is an Offline Only exclusive, available only to buy from selected authorised Flos dealers. Please [contact us](#) for pricing or to arrange an appointment to discuss this product in our [showroom](#).

Flos presents the La Plus Belle mirror with an incorporated LED strip, a design by Philippe Starck. The La Plus Belle offers the lighting you need to get ready, put your make up on or style your hair. The LED strip emits a total of 54W, a powerful light that doesn't give any glare, but beautifully embraces the mirror for a standout piece of furniture. The light output from La Plus Belle LED mirror is pleasant and soft warm white, as well as manageable by the dimmer with a sensor integrated in the mirror.

The frame is made of aluminium and comes in a choice of a polished bronze, brushed gold or polished aluminium finish. The mirror can be wall mounted, hung the same way you would hang a painting but with a dual magnet fixing device that goes on the wall.

PRODUCT SPECIFICATION

- Light Source:** 58W, 3000K, 5300 lumens
