PRODUCT DESCRIPTION

Designer: Sinja Svarrer Damkjær

The Bouquet 130M1 Pendant by Le Klint

The Bouquet pendant design gets its inspiration from Sinja Svarrer Damkjær's experience while on a trip to Italy. There, she closely observed the flower handlers in the market, who bundled tulips together. The flower heads would hang downwards, swinging and bending to create a beautiful yet natural curve.

Creating the [Le Klint Bouquet collection](#), Damkjær has produced a range of hanging pendant lights which resemble the bouquet of flowers. The Bouquet 130M1 pendant is a single flower pendant light, made of pleated fabric, a braided linen cord and a small oak wood detail at the top. The oak cord adjuster at the top allows you to adjust the cable length in a simple way.

Each version within The Bouquet range is available with larger individual shades. Please [contact us](#) for details and prices for these larger shade options.
