PRODUCT DESCRIPTION

ferm LIVING Braided Belly Pendant Light

The Braided collection is made of rattan, a type of climbing reed from the old world. The rattan is braided by hand and forms this lovely and organic spherical Belly pendant, as such you can expect small variations between each pendant. Whether you hang it above your dining table or at any place in your home, the rattan braids let out thin strips of light in every direction while the opening at the base of the shade provides direct downward lighting.

This pendant light is also available to purchase with a 4m cable suspension kit or without a suspension kit. Please [contact us](#) for more information.
