PRODUCT DESCRIPTION

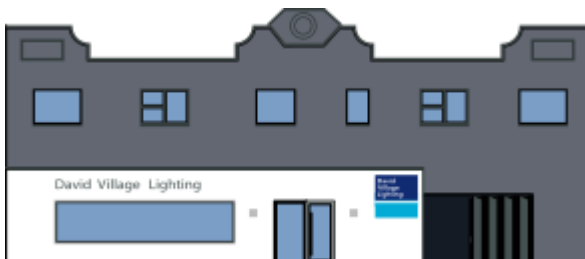

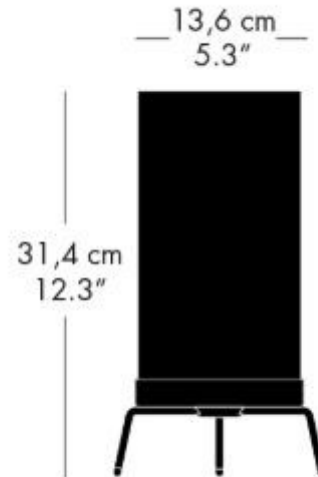

PM-02 Planner Table Lamp by Fritz Hansen

A new addition to the Planner collection relaunched from the 1950s, created by American designer Paul McCobb. The Planner PM-02 table lamp has a minimal, Scandinavian feel and shows that simplicity can be beautiful, practical and timeless.

This functional design consists of an opal blown glass diffuser, emitting a warm and atmospheric glow. The hardy metal stand is an elegant contrast to the opal shade, available in black steel or untreated brass. Untreated brass eventually ages with a patina effect, the brass dulls and looks more antique. The Planner PM-02 is perfect for smaller spaces, but undoubtedly creates huge impact. Ideal for spaces such as living rooms, bedrooms or hallways.
