PRODUCT DESCRIPTION

Designer: Le Corbusier

**Projecteur 165 Wall / Ceiling by
Nemo Lighting**

Designed by Le Corbusier in 1954, the 165 Wall Ceiling Light is the mini adjustable version of the 365 design as part of the wider [Projecteur collection](#). The directional nature of the light make this a perfect wall or ceiling spot lamp, that will look good in a variety of settings or rooms. By using opal glass, the diffused light gives a warm incandescence and the ability to dim, by using a dimmable bulb, means this light is the ideal mood setter.

Line your entrance hall to create a warm welcome, or use the 165 light to create a cosy lounge environment alongside other lights from the collection. With three mellow colours for you to choose from, you can mix and match or simply stick with one colour scheme to add the final flourishing touch to your space.
