PRODUCT DESCRIPTION

Designer: Mario Bellini

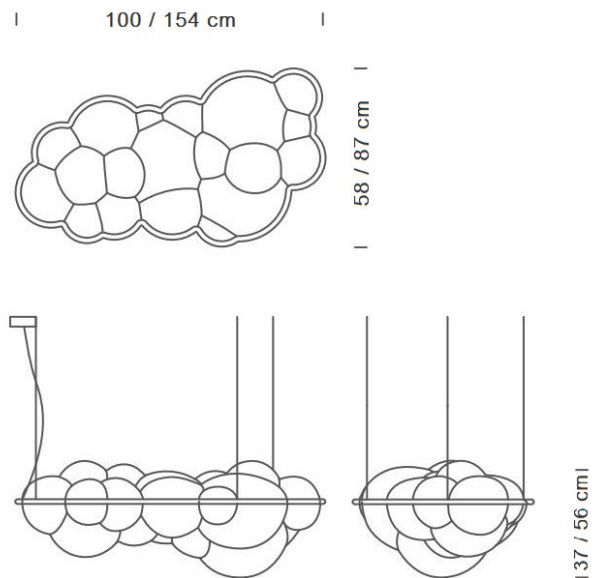

Nuvola Pendant by Nemo Lighting

Nuvola in Italian means cloud, and that is exactly what the Nuvola pendant light is, a floating luminaire in a cloud shape. Italian company, Nemo Lighting present the Nuvola in two sizes, the standard Nuvola Pendant and the Pendant Minor. Nuvola is dimmable via 1-10V dimming systems and has an integrated LED light source. The luminaire is suspended from the ceiling with three cables, which are adjustable and a white ceiling canopy.

Nuvola suspension is ideal for homes and office spaces. It adds a pleasant, diffused light into every space. The pendant looks stunning on its own, but you can select to install multiple Nuvola pendants in larger spaces to create a staggering effect. Mario Bellini, the designer of the Nuvola, pioneered with this design for creating a luminaire entire made of plastic. Originally designed in 1974 for the Pianeta Ufficio, the Nuvola is now mass produced and redesigned for both industrial and domestic use.
