PRODUCT DESCRIPTION

Designer: Earnest Studio

Muuto Post Floor Lamp

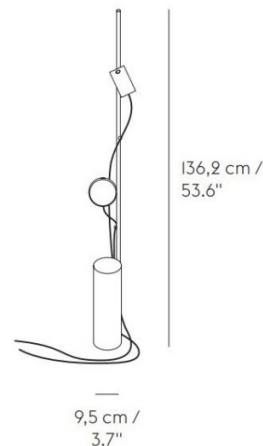

An innovative design and collaboration with Rotterdam-based Earnest Studio for Muuto, the [Post family](#) of products brings new perspectives to modern lighting through their advanced functionality, graphic character and simple lines.

The Post floor lamp by Muuto is comprised of two lighting units which can be individually positioned anywhere on the lamp base and, due to their magnetic joints, can be individually angled and turned to a desired position. Each lighting unit is connected to the central on/off switch but alternatively can be switched on/off individually. The Post floor lamp boasts even more adjustability with magnetic cable drops which can be attached to the lamp base if desired.

With freedom and accessibility at its heart, the Post floor lamp by Muuto is sculpturally expressive while remaining refined. Additional lighting units can also be added to Muuto's Post floor lamp, please [contact us](#) for prices and availability.
