PRODUCT DESCRIPTION

Designer: Xavier Manosa

Marset Pleat Box LED Pendant Light

Born from a successful creative collaboration between master ceramicist Xavier Manosa and Berlin-based Marshalla Design Studio, Marset's Pleat Box was created in 2011. Pleat Box was produced by Spanish based lighting manufacturer Marset. The design was made from a combination of digitally designed creases in a piece of cloth and an organic silhouette which is applied to a ceramic base. The form has a soft/delicate quality which envelopes around the light source to avoid glare and give a seamless finish.

Marset Pleat Box is available in four sizes and eight colour options, this minimal and stylish pendant light makes for unique and engaging installations of multiple pendant lights. Pleat Box's organic form resembles fabric, how it creases and hangs under its own weight or over an object. The range of colours is perfect for domestic and commercial spaces, ideal for kitchens, dining and social areas for added impact.

The Marset Pleat Box LED Pendants can also be supplied with Dali dimming upon request. Please [contact us](#) for more information.
