Louis Poulsen AJ Wall Light Stainless Steel

PRODUCT DESCRIPTION

Designer: Arne Jacobsen

Stainless Steel AJ Wall Light by Louis Poulsen

The Louis Poulsen AJ Wall Light is now available with a stainless steel finish - the true original finish designed in 1957 by iconic Danish architect and designer Arne Jacobsen for the SAS Royal Hotel in Copenhagen. The re-release of the stainless steel finish is in celebration of the 60th anniversary of the opening of the SAS Royal Hotel in which the stainless steel AJ wall lamp could be found in rows in the lobby.

The Louis Poulsen AJ Wall Light features a swivelling 9cm diameter shade, creating a focused beam of light with very little glare. This wall light comes with a cable which plugs into the wall. Alternatively, the light can be hard-wired into the wall by a qualified electrician.
