PRODUCT DESCRIPTION

Designer: Sir Kenneth Grange

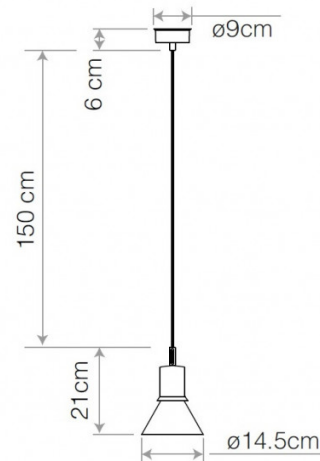

Type 80 Pendant Light by Anglepoise

The Type 80 pendant was designed by Sir Kenneth Grange as part of the [Anglepoise Type 80 collection](#), a range that features a beautiful conical lampshade, using an iconic, timeless shape for the modern eye. The Type 80 pendant light features stunning, sharp lines and has a light escaping feature in the middle of the shade. This allows for extra light and creates a halo effect, proving to be an interesting and unique take on how light can be manipulated to create different aesthetics.

This pendant light also emits a soft downward glow, perfect for hanging over tables in dining and kitchen areas. The pendant will also work well as a stand alone light or can be used as part of a cluster, mixing and matching the various colours to produce a spectacular feature for your space. Suitable for lounge areas, the Type 80 pendant can be used in home and commercial interiors to add a splash of style and sophistication.
