PRODUCT DESCRIPTION

Puzzle Single Square Wall / Ceiling Light by Lodes

The Puzzle Single Square wall and ceiling light is made from metal, characterised by its simple squared shape that adds a minimalist and graphic touch to the room. The integrated LED light sits inside the lampshade, rebounding light off the inside to project an illumination onto the wall. Playing with light and shadow, the Puzzle Single Square ceiling and wall light can be placed in different positions, letting you choose where you need the light directing.

The light source is dimmable, making this wall and ceiling light perfect for creating whatever atmosphere you wish. It also comes with a choice of colour temperature, either 2700K (warmest white) or 3000K (warm white) and the two subtle colours to choose from means it will easily fit into any colour scheme in your interior. Perfect for homes or big projects, the Puzzle Single Square light has much to offer, with a simple yet eye-catching design and a unique distribution of light.
