PRODUCT DESCRIPTION

Designer: Thomas Bernstrand & Stefan Borselius

Bob Bow by Zero

A light made to arch above the BOB sofa system by Bla Station, the Bob Bow suspension is the latest addition to Zero's collections. Similar to its predecessor, the Bob Floor Lamp, the suspension billows over the sofa - or any furniture for that matter. Bob Bow is comprised of three luminaires that are connected via two bows. In fact, the distance between each shade is based on the geometry of the BOB sofa modules. You can install the Bob Bow in the living room, the hallway or a meeting room table; a light fit for any interior setting both commercial and residential. Bob Bow is available in two colour options, same as the floor version, white or black. A choice of neutral colours means the Bob Bow suspension will match any decor. The suspension provides a warm and diffused ambience, with a high efficiency integrated LED source. It is also dimmable via mains phase so you can tailor the brightness to your liking.

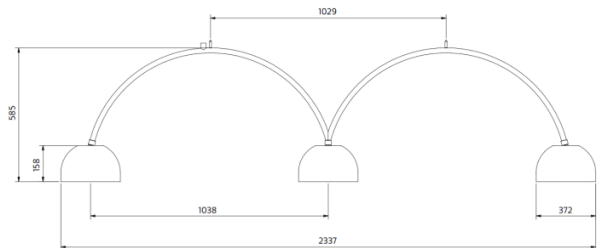

PRODUCT SPECIFICATION

Light Source: 30W, 3000K, 2514 lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: 233.7 cm length
