PRODUCT DESCRIPTION

Designer: Note Design Studio

Landscape by Zero

A collaboration between Note Design Studio and Zero, brought us the Landscape suspension lights. A collection of modular lights, with a streamlined design and aluminium body. Landscape is the perfect lighting for office spaces, or dining areas. The suspension is meant to reconfigure any space with its straight lines and repetitive form; inspired by the idea that nature lacks linearity. Hence, the designers extract the silhouette of mountain chains and inserted it into the pendant light.

Landscape is available in two sizes, which represent two different lengths: Small (L1156) and Large (L1706). The suspension is available in a choice of five colour options, black, white, grey, purple metallic and blue metallic. The colours are customisable, so if you prefer a different finish, please [contact us](#) for more information and pricing. In addition, you can choose to connect several Landscape suspensions, creating a long mountain range in your office space or business. The brackets to connect the lights are available as an accessory.

Finally, the suspension benefits from an integrated LED source, of either 50W for the small and 93W for the large and longer light. The light emits 60% uplight and 40% downlight, making it a great light for any task and creating a unique feel and atmosphere.

PRODUCT SPECIFICATION

- Light** **Small** - 50W, 3000K, 4140 lumens
- Source:** **Large** - 93W, 3000K, 6210 lumens
- IP Code:** 20
- Dimming:** Dimmable via DALI/Push to make dimming systems. Please consult your electrician, additional wiring may be required on site.
- Dimensions:** **Small :**
 - 115.6 cm length
 - 4.4 cm height
 - 3.6 cm width
- Large :**
 - 170.6 cm length
 - 4.4 cm height
 - 3.6 cm width
- 250 cm cable length
