PRODUCT DESCRIPTION

Designer: BIG

Gople Table Lamp by Artemide

Following the success of the Gople suspension lights, as well as the RWB version, BIG designed the table version. Gople Table Lamp retains the characteristic blown glass diffuser, made via a unique technique based in an ancient Venetian tradition. The blown glass is slowly transformed into crystal glass, by combining the both during the blowing process and as such making each piece unique. As with the suspension lights, Gople Table comes in white, copper, bronze, silver and sapphire blue. The metallic colour options are created via vacuum metallisation process; one that creates very little waste. The entire process in which the Gople diffusers are made, aims to maximise the performance of the light via transparency.

Gople Table Lamp is available in five metallic colours with the choice of a silver, black or white base for various options. When used with a retrofit dimmable source, you can adjust the light brightness using the inline dimmer. The lamp is perfect for any interior spaces, and can be used both as a table and floor lamp. Whether in your office, home or business the Gople light creates a stunning lighting atmosphere in any space. The table lamp is also available in smaller version, the [Gople Mini](#).

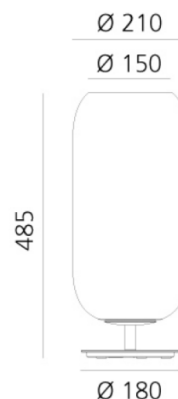

PRODUCT SPECIFICATION

Light Source: 1 x 21W LED E27 dimmable (excluded)

IP Code: 20

Dimming: In line dimmer included on cable

Dimensions: Ø 21 cm
48.5 cm height
Ø 18 cm base
200 cm max cord length
