Axolight DoDot LED Ceiling / Wall Light

SOURCE: <https://www.davidvillagelighting.co.uk/product/Axolight-DoDot-LED-Ceiling-Wall-Light/20821>

PRODUCT DESCRIPTION

Designer: Simone Micheli

DoDot by Axolight

The latest addition to the Axolight family, the DoDot is a compact yet powerful light. Designed by Simone Micheli and developed by Axolight's R&D team, the DoDot is comprised of two halves of a sphere, and is adjustable by +/- 46°. DoDot is a unique and iconic form of light, Micheli designed it as such that it stands out for its colour, but disappears due to its geometry. A light made entirely in Italy, from design to production.

The wall and ceiling light is available in 5 colour options: white, black, concrete green, mauve dust and blue. DoDot is dimmable and is equipped with an integrated LED source, emitting a warm white light (3000K) with a luminous flux of 2000 lumens. There are three beam angles available, the 15° and 35° are oriented by an aluminium reflector, while the largest 45° by a glass lens.

DoDot is also available in warmest white colour temperature 2700K (~1800 lumens) and can be compatible with Casambi dimming systems, on request. Please [contact us](#) for more information and pricing.

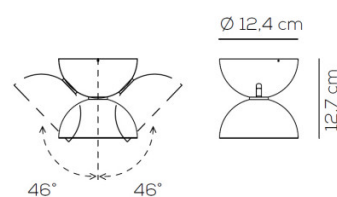

PRODUCT SPECIFICATION

Light Source: 17.5W, 3000K, 2000 lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø 12.4 cm
12.7 cm height
46° adjustable angle

OPTIC-LENS 48°

OPTIC-REFLECTOR 35°

OPTIC-REFLECTOR 15°
