PRODUCT DESCRIPTION

Designer: Serge & Robert Cornelissen

Kwic Suspension by Axolight

Kwic was designed by Serge and Robert Cornelissen for Italian brand, Axolight. The suspension is comprised of an aluminium disk - available in two sizes - and a decentralised opaline glass diffuser. The diffuser houses the integrated LED source, emitting a warm white (3000K) light. You may choose between an intense black finish or a transparent bronze colour. Kwic will add an intense light into any interior, radiating from the opaline diffuser while the glow is filtered through the frame. The Kwic suspension can become a centre piece and attract all eyes, or remain a more discrete presence depending on the installation. Whether above tables, in the living room, in a corner or in commercial spaces, Kwic is guaranteed to impress.

The family also includes a [ceiling/wall light](#) available in two sizes, and a [floor lamp](#).

PRODUCT SPECIFICATION

- Light Source:** 18W, 3000K, 2151 lumens
- IP Code:** 20
- Dimming:** Dimmable via 1-10v dimming systems. Please consult your electrician, additional wiring may be required on site.
- Dimensions:**
 - Kwic 36**
 Ø 36 cm disk
