PRODUCT DESCRIPTION

Designer: Axolight Lab

Axolight Ego Ceiling / Wall Light

A light that is entirely made of natural brass, the Ego light was created by the Axolight Lab, a multidisciplinary team that utilises unattainable objects and turns them into designer lighting. Their last project was Ego, whose features - shape and light - are an amalgamation of experience and creativity.

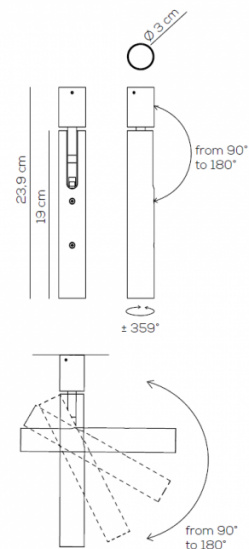

Ego can be installed both as a ceiling and a wall light, as the base can tilt from 90° to 180° and rotate up to an impressive 359°. The light has an integrated LED source, emitting a warm white light (3000). Ego emits an impressive beam of light, due to the perfection of its lenses.

Because of the natural brass finish of the Axolight Ego Ceiling/Wall Light, it will develop a unique patina over time.

Please Note: This product uses a remote driver that will need to be housed in the ceiling or wall.

PRODUCT SPECIFICATION

- Light Source:** 8.8W, 3000K, 1220 lumens
- IP Code:** 20
- Dimming:** Dimmable via mains phase dimming.
- Dimensions:** 23.9 cm max height
 Ø 3 cm
 359° rotation
 from 90° to 180° tilt angle
