**PRODUCT DESCRIPTION**

Designer: Axolight Lab

**Axolight Ego Ceiling / Wall Light**

A light that is entirely made of natural brass, the Ego light was created by the Axolight Lab; a multidisciplinary team that utilise unattainable objects and turn them into designer lighting. Their last project was Ego, whose features - shape and light - are an amalgamation of experience and creativity.

Ego can be installed both as a ceiling and a wall light, as the base can tilt from 90° to 180° and rotate up to an impressive 359°. The light has an integrated LED source, emitting a warm white light (3000). The Ego ceiling and wall light comes with a standard, non-dimmable 250mA driver, which is inclusive of the price. Ego emits an impressive beam of light, due to the perfection of its lenses.

**Please Note: because of the natural brass finish of the Axolight Ego Ceiling/Wall Light, it will develop a unique patina over time.**

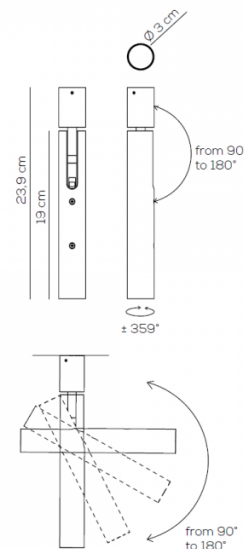

**PRODUCT SPECIFICATION**

**Light Source:** 1 x 8.8W 35.2V<sub>DC</sub>, 3000K, 1220 lumens

**IP Code:** 20

**Dimming:** Non dimmable.

**Dimensions:** 23.9 cm max height  
 Ø 3 cm  
 359° rotation  
 from 90° to 180° tilt angle
