PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

Fora Outdoor Wall Light by Bover

The Fora outdoor wall light was designed in 2010 by Alex Fernández Camps & Gonzalo Milá. The light is made for outdoor use, although it can also be used indoors, and has a lovely woven lampshade and inner diffuser which protects the light source. Thoroughly an inspiration from nature, the wall light evokes the shell of a sea urchin, being an organic and rustic design that will draw the eye.

The Fora wall lamp is available in a light beige shade and natural white structure or a rattan brown shade with a graphite brown structure so you can find the right match for your space. The wall lamp can be used in any setting, suitable for exterior walls, gardens, patios, conservatories and more to create a warm atmosphere with artisan decoration.
