PRODUCT DESCRIPTION

Bella Table Lamp by Panzeri

Almost futuristic, the Bella table lamp was designed by Enzo Panzeri, the son Panzeri's founder. His design entails a game of geometric shapes and surfaces. You can adjust the lamp's head, by tilting it up to 50° and change the light's direction. A 5 level integrated dimmer (located at the base of the head) allows you adjust the light intensity depending on the use.

Bella is available in five colour options: white, black, titanium, bronze or matt brass.

The collection further includes a suspension light, with either direct or indirect emission, and a wall light, with a standard or recessed wall fitting.

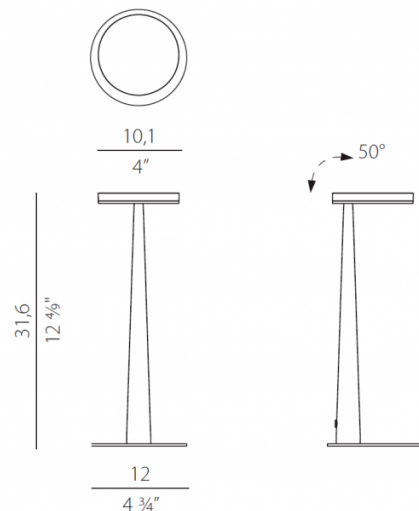

PRODUCT SPECIFICATION

Light Source: 5W, 2700K, 388 Lumens

IP Code: 20

Dimming: Integrated dimmer included on product.

Dimensions: Height: 31.6cm
Base: Ø12cm
