PRODUCT DESCRIPTION

Designer: Poul Henningsen

PH Snowball LED Pendant Light by Louis Poulsen

Designed by Poul Henningsen in 1958, the PH Snowball LED pendant was put on exhibition at the Danish Museum of Decorative Art. After not receiving much attention, the pendant was largely forgotten until it was relaunched in 1983. The pendant light is made from 8 shades with a white finish which helps to softly reflect the glow, creating a glare-free and effective light.

The PH Snowball LED pendant light has an integrated LED light source which is dimmable so you can create the ambience you want. Useful for many settings, both in the home and in commercial settings, to create a wonderful atmosphere with timeless and chic design.

The PH Snowball LED pendant lamp is available in 3 dimming options. It can be dimmed using mains phase dimming, Dali dimming systems or via bluetooth. Please [contact us](#) for more information and prices.

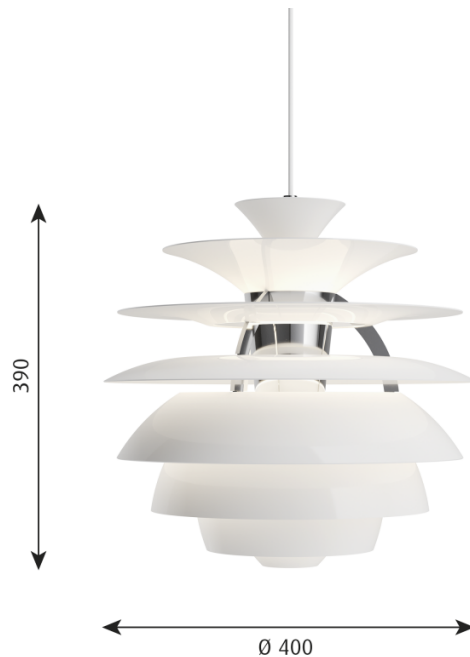

PRODUCT SPECIFICATION

Light Source: 41W, 3000K, 894 Lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø40cm
