PRODUCT DESCRIPTION

Designer: Space Copenhagen

Lucca SC51 LED Portable Lamp by &Tradition

The Lucca LED portable lamp was designed by the founders of Space Copenhagen, a new design in 2020, after they were inspired by their collective experience in the Mediterranean. They wanted to recreate the golden glow they encountered in beautiful towns across the region, the glow that lights up the night sky and winding roads, creating a charming and dreamy ambience.

The Lucca portable light has gorgeous curved lines and a glass lampshade that diffuses the LED light source to create a warm and soft illumination. The elegant metal structure allows the user to carry it around and move with ease, being able to use the lamp both outdoors and indoors. The portable lamp also has a dimmer switch with 3 light settings so you can create the atmosphere you want. The lamp is battery powered and can last up to 12 hours when fully charged using a USB cable.

Use this refined and magical lamp in many settings, whether you need a bedside lamp or a light on your patio as you sit under the stars. Available in 3 subtle finishes, the Lucca LED portable will not disappoint and will add a touch of European chicness to your interior or exterior.

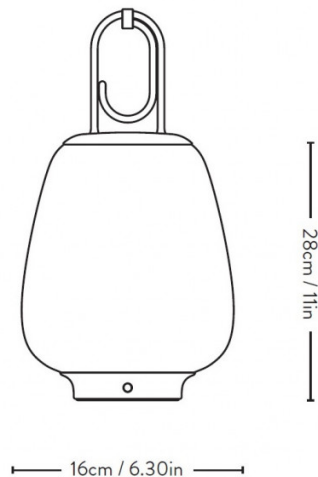

PRODUCT SPECIFICATION

Light Source: 2.5W, 2700K, 143 Lumens

IP Code: 44

Dimming: Integrated dimmer on the product.

Dimensions: Ø16cm
Height: 28cm
Charging Cable Length: 200cm
