**PRODUCT DESCRIPTION**

**Designer:** Filippo Protasoni

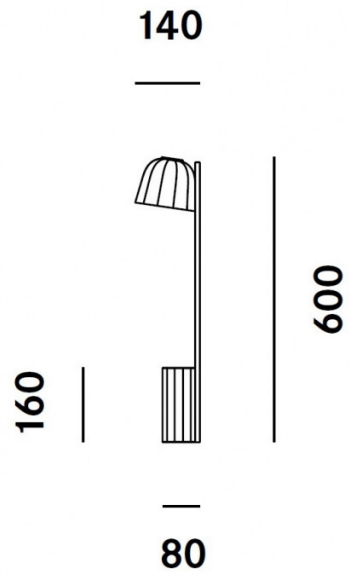

**Novia Table Lamp with USB Port by Prandina**

Designed by Filippo Protasoni, the Nova table lamp reinvents a fabric lampshade by reinterpreting it through the use of metal. The shade has a gorgeous octagonal shape paired with slender stem to create a modern and contemporary look. The table lamp also has an integrated USB port on the base, being useful for charging any device that uses a universal USB cable.

The Nova table light is wonderful for a wide variety of settings, whether used on desks in a professional office or on your bedside table. The table lamp creates a nice, warm glow, perfect for setting a welcoming ambience and also useful for reading or tasks. The chic green finish also attracts the eye, being a striking piece in any interior.
