PRODUCT DESCRIPTION

Designer: Filippo Protasoni

Novia Wall Light with USB Port by Prandina

The Novia wall light was designed by Filippo Protasoni and is made from painted metal. The lampshade reinterprets the classic aesthetic of a fabric shade, creating a modern look by using metal. The wall light is also innovative because of its USB port, useful for charging any device that uses a universal USB cable charger.

The Novia wall lamp was created with the hospitality sector in mind, being useful for big projects and commercial settings. This wall lamp would also be useful for offices and reception areas, bringing a warm ambience and charging functions to the space. Versatile and functional, this wall light will not disappoint!
