PRODUCT DESCRIPTION

Designer: Hans-Agne Jakobsson

Fringe Table Lamp by Warm Nordic

Designed in 1960 by Hans-Agne Jakobsson, the Fringe table lamp is a sophisticated and chic light that is now iconic. The table lamp has a beautiful fringe, which is available in either cream white or pale rose, and a structure made from brass plated steel. The fringed lampshade conceals the light source, creating a warming glow that is cosy and inviting.

The vintage design of this table light makes it suitable for many settings, whether used in the home or in professional spaces to provide a timeless look and a soft lighting solution. The Fringe table light can be used in bedrooms, lounges, dining areas and more on tables, desks, side tables or shelves. The classic aesthetic and stunning pairing of brass and fringe make this lamp a wonderful choice and will be a true collector's item in years to come.

This table light can only be fitted with an LED retrofit lightbulb.
