PRODUCT DESCRIPTION

Designer: Hans-Agne Jakobsson

Fringe Wall Lamp by Warm Nordic

The Fringe wall light is a chic and vintage lamp that was designed in 1960 by Hans-Agne Jakobsson. Retaining all of its original charm and style, this wall lamp is made from brass plated steel paired with a fringed lampshade. The graceful fringe hides the light bulb, creating a soft glow that is warming and comfortable. The wall light also has a handy switch included on the cable, being easy to use and versatile.

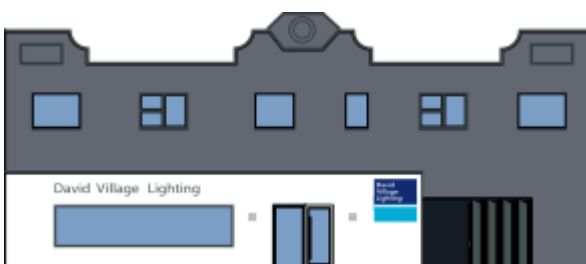

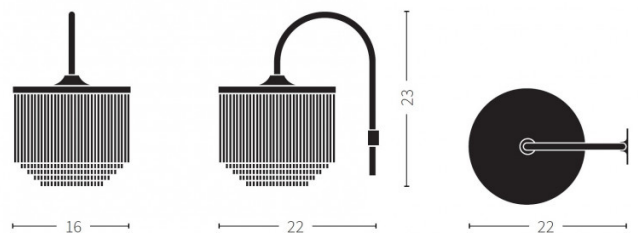

The Fringe wall lamp is available in a cream white colour finish, and can be used in many settings to add a sophisticated and stunning look. The fringe will catch the eye and will work well in both traditional and modern design schemes. Use in bedrooms, offices, lounges and more to create an iconic look.

Please note this wall lamp needs to be installed near a socket and can only be fitted with an LED retrofit light bulb.
