**PRODUCT DESCRIPTION**

**Designer:** Alberto Saggia & Valerio Sommella

**Nami LED Wall Lamp by KDLN**

The Nami wall light, designed by Alberto Saggia & Valerio Sommella, is an elegant and graceful light that has a mysterious and intriguing aesthetic. The name Nami is Japanese for wave, which reflects the rippled effect of the lampshade that evokes images of the sea. The beautiful design plays with perspective, resembling the enigma of water and the light reflections that can emerge in natural beauty.

The Nami wall lamp is available with either a black or brass finish, and will be a subtle addition to many interiors whilst maintaining an evocative look. The wall light has an integrated LED source, which will last long and emits an effective, warm glow. The light reflects off the shade, emitting upwards and outwards. Use in corridors, lounges, hallways, offices, and many more settings to create a comforting and magical atmosphere.

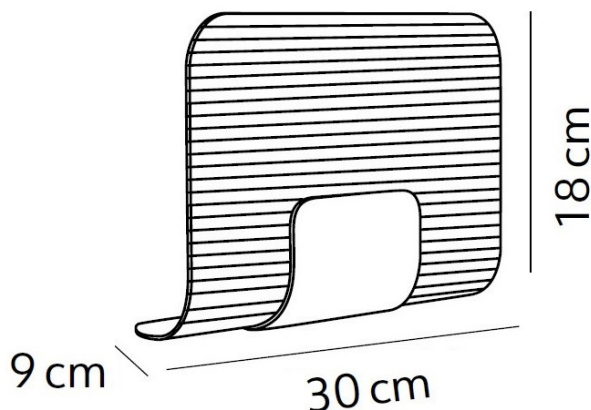

**PRODUCT SPECIFICATION**
