PRODUCT DESCRIPTION

Designer: Cristina Celestino

Opyo Pendant Light by KDLN

Designed by Cristina Celestino, the Opyo pendant is an elegant and sophisticated light that provides a soft, warm glow. Undoubtedly inspired by nature, the lampshade has a rounded, bulbous shape that resembles a poppy before it blooms. The bottom of the shade also has a gorgeous metal fringe which is available in 3 finishes, white, brass or coral.

The Opyo pendant light has a glass shade in opal white that diffuses and conceals the light source, producing an effective and comfortable illumination that fills the room. The pendant can be used in many settings, either as a main light in a smaller room or in multiple in bigger spaces. You can mix and match colour finishes to create variety and could configure in a cluster to create a beautiful light feature.
