PRODUCT DESCRIPTION

Designer: Storamilano

Floed Wall and Ceiling Light by KDLN

The Floed ceiling and wall light was designed by Storamilano and is inspired by the structure of a gorgonian coral and how it spreads throughout the water. The light is made from a bronze metal rod that holds a striking opal glass shade. The lampshade diffuses the light, creating a warm and effective glow that fills the room.

The Floed light can be installed on the wall or on the ceiling, being a versatile and adaptive light that can suit all of your needs. The elegant bronze finish and simple white shade creates a chic look that can be used in any design scheme. Use in homes or commercial spaces for an atmospheric illumination in bedrooms, corridors, lounges, hallways and more.
