PRODUCT DESCRIPTION

Designer: Michael Anastassiades

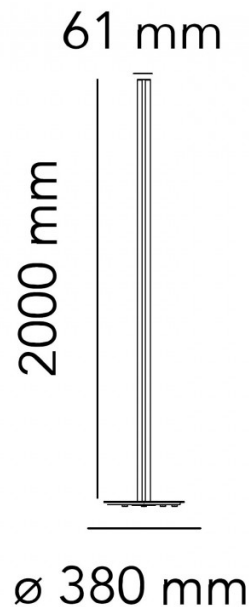

Coordinates Floor Lamp by Flos

Coordinates floor lamp is one of Michael Anastassiades' latest creations for Flos. It was originally designed for the legendary Four Seasons restaurant, in New York. The LED floor lamp consists of two poles, vertically positioned and which can be oriented during installation. The two poles are attached to the round base, with a cover made of anodised aluminium. The lamps' anodised champagne or argent finish gives the lamp a chic finishing touch, guaranteed to match any interior decor. A clean design, stripped down to the basic elements needed to provide a delicate ambience in your home or business.

The Coordinates floor light benefits from an integrated LED light source, with an on/off switch and dimmer located on the cable. The dimmer allows you to adjust the lights' brightness, from 10 to 100%. This floor light can be used in both residential and commercial, interior settings.
