PRODUCT DESCRIPTION

Designer: Constance Guisset

Vertigo Nova LED Wall Lamp by Petite Friture

The Vertigo Nova wall lamp is a new 2020 product by Petite Friture, which expands on the iconic [Vertigo pendant](#) by creating a wall installation. The wall light has a springy and lightweight shade that hangs off an arched structure that makes an impact in the room. The lampshade has delicate ribbons which cast beautiful shadows across the interior.

The Vertigo Nova wall light can be used in many settings, in both homes and commercial spaces, to add an artistic and modern touch. The wall lamp is available in 2 sophisticated colours, black or white, and will provide an effective and warm glow that is diffused. With an integrated LED light source, which is dimmable, the lamp will be long-lasting and energy efficient.

This LED wall lamp is provided with a cable so you can install near a socket. It can also be hard-wired to the mains to become a dimmable light solution. Please consult an electrician before hard-wiring.
