PRODUCT DESCRIPTION

Designer: Constance Guisset

Vertigo Nova LED Floor Lamp by Petite Friture

Designed by Constance Guisset, the Vertigo Nova floor light is a sophisticated and stylish lamp that is an instant icon. The floor lamp comes with an integrated LED light source which is energy-saving, long-lasting and dimmable, allowing for a warm, diffused glow that will fill the room. The shade is suspended from an arched structure which makes the light seemingly float in the air, being weightless and airy. The height can also be adjusted, giving you complete control and mobility.

The Vertigo Nova floor lamp is available in a white or black/white finish and will look good in many different settings whilst providing ambient and effective illumination. The artistic ribbons cast shadows in the room and create a unique focal point in any space. Equipped with a handy dimmer switch, you can create the right atmosphere, useful for a cosy night in or as a bright reading light.
