PRODUCT DESCRIPTION

Designer: Studio Pepe

Unseen LED Chandelier by Petite
Friture

New for 2020, the Unseen chandelier is a contemporary and stylish take on a chandelier, designed by Studio Pepe exclusively for Petite Friture. The chandelier light is made up of five tubes, all shaped in circles and loops to create a geometric phenomenon. Each tube has an integrated LED light source, being an efficient and long lasting lighting solution for your space.

The modernity of the Unseen LED chandelier makes it a wonderful choice for many interiors and will particularly thrive in spaces that are big or with a high ceiling. Each component emits a strong band of white light that will illuminate the space and shows off the simplistic and pure nature of lighting a room. Do not miss out on this innovative and stunning light fixture.
