PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt Standing Chandelier

A part of the astounding [Tom Dixon Melt collection](#), the Melt stand chandelier light is made up from 4 Melt shades and 3 Melt Mini shades. The gold finish is made from polycarbonate with a metallised interior, whilst the opal finish utilises the same materials but with a very different outcome - creating a more minimalistic and pearl-like effect. This means that the lampshades appear opaque and solid when turned off and then once turned on reflect the light to produce a glowing, melting effect.

The luxurious and stunning aesthetic makes the Tom Dixon Melt Standing Chandelier a focal point of any room and will also create a welcoming atmosphere. Use in many interiors, whether at home or in a professional space, to create an impact in your decor. Display this design individually or in groups with other lighting solutions in the [Melt Collection](#) for a sleek and cohesive interior.
