PRODUCT DESCRIPTION

Designer: SmithMatthias

HAY Noc Button Wall Light

The HAY Noc Button Wall Light was designed by SmithMatthias, who are a London based design duo called Jack Smith and Gemma Matthias. Their creative partnership thrives on problem solving and seeking the perfect balance between 'need and want'. Their design process is to explore ideas through quality of craftsmanship and sustainability of materials to create enduring pieces of design that are created to last. This is clear in the design of the HAY Noc Button Wall Light that uses lightness of touch both materially and aesthetically.

The HAY Noc Button Wall light is a simple and functional design that features a durable aluminium shade and an integrated button function that allows you to switch the wall lamp on and off with ease. This lamp is also supplied with a bulb and cable making it easy to install and ready to light up a room in an instant. There are also two finishes available which are Off White and Dark Grey, both would be perfect for any interior.
