PRODUCT DESCRIPTION

Designer: Jordi Canudas

Dipping Portable Table Lamp by Marset

The Dipping collection's story is far from over, Marset did not settle for just two table lamps. In its most recent and poetic version, Jordi Canudas designed the Dipping Portable lamp. The portable Dipping relies on a battery, with a battery life of 5hrs in peak power, 10hrs in half power or 20hrs in a quarter power. The lamp needs 10hrs to fully charge, and it's easy to do using a standard mini USB cable.

As with the other table lamps, the Dipping Portable boasts a brushed brass body, while the glass spherical shade comes in 6 colour options of layered paint to choose from. At the base of the lamp you will find an on/off switch as well as a three step dimmer to adjust the light intensity depending on mood and use. The portable version of the Dipping may be purchased with an **optional** Ø11 cm disk base or with a magnet accessory to place the lamp on metallic surfaces. Please, [contact us](#) for more information and pricing.

PRODUCT SPECIFICATION

Light Source: 3.5W, 2700K, 216 Lumens**IP Code:** 20**Dimming:** Integrated dimmer on product.**Dimensions:** Shade: Ø12.5cm
Base: Ø6cm
Height: 22.2cm
