PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

Tolomeo Tunable White LED Table
Lamp by Artemide

Part of the iconic Tolomeo collection, the Tolomeo TW LED table lamp brings in the advantage of adjusting both light intensity and colour temperature. The lamp can emit a warm white light up to the coldest white light, ranging from amber, to white and up to blue light colours.

The switches are both located just before the head of the lamp, with an easy access for you to adjust brightness and colour temperature, depending on task or mood. A cantilevered arm and an adjustable head permits the user to adjust the lamp to a desired position. Available in an aluminium finish, the Tolomeo TW comes with a 23 cm round base, but can have a desk fixed or table clamp, instead. Please [contact us](#) for more information and pricing.

Explore the [Tolomeo collection](#), a timeless and beloved design for your home, office or business. The table, wall, floor and ceiling lights create a complete family of lights that can be combined in any interior space and create a unified style.
