PRODUCT DESCRIPTION

Designer: Diesel Creative Team

Cage Pendant Light by Diesel Living with Lodes

The Cage pendant light was designed by the Diesel Creative Team and takes its inspiration from the lights used by miners and underground workers. The pendant has an industrial aesthetic which is modernised and made graceful with the combination of a metal cage and a blown glass diffuser. **The diffuser is available in a white or bronze finish and the cage is available in a black or white finish** so you can find the right look for your interior.

The Cage pendant lamp is also available in a small, which comes with a matt white ceiling canopy, or a large size, which comes with a black ceiling canopy. The pendant light provides a downward directed glow as well as a diffused illumination that is dimmable. The blown glass means the lampshade warms up as the light is switched on, creating an alluring and welcoming look. Suitable for many settings, use this pendant lamp in homes, offices, commercial spaces, hospitality interiors and many more for a chic and contemporary style.

The small size of the Cage pendant is suitable for installation as a cluster suspension when bought in multiple and using ceiling canopies available from Diesel Living with Lodes. Please [contact us](#) for more information and prices.
