PRODUCT DESCRIPTION

Designer: Luca Nichetto

Aile LED Wall Lamp by Lodes

Designed by Luca Nichetto, the Aile wall light takes its name and shape from ailerons that are usually seen on sports cars. Made from aluminium, the wall lamp has a lightweight and streamlined design that has a dynamic and clean look. The size of the wall light also makes it very versatile and can be used in a wide variety of interiors.

The Aile wall lamp is available in 4 finishes and provides a powerful glow that emanates upwards and outwards. The diffused nature of the light means it can be used for a bright illumination or a cosy ambience and with dimmable capabilities, you can create the exact atmosphere you need in your space. Use in offices, homes or professional settings for a sleek and subtle lighting solution.
