PRODUCT DESCRIPTION

Designer: Tham & Videgård

Wastberg W171 Alma Wall Light

A part of the Wastberg Alma collection, the W171 Alma wall light is a beautiful and stunning fixture. With a rippled effect the wall light design is based on the curve of a rotated sine wave, creating a graceful and refined aesthetic that is alluring and eye-catching.

Available in a signal white or a grey white colour finish, the Alma wall light can slip into any design scheme, and will add a timeless touch to any interior. The wall light provides a nice ambient glow that reflects off of the shade to illuminate the room, and has a dimmer switch on the cable to set the right mood in your space.

The Alma wall lamp needs to be installed by a nearby socket as it comes with a cable and external plug.

Compatible with all major light track systems (adapter not included)
