PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

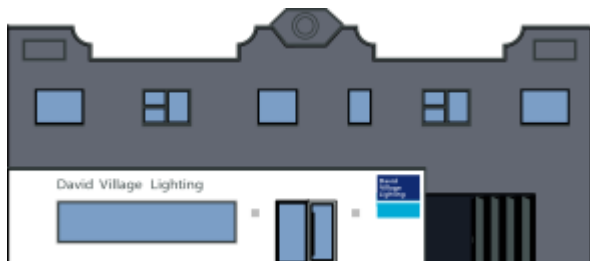

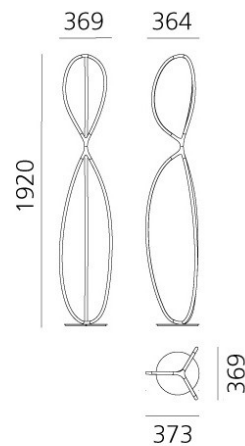

Arrival LED Floor Lamp App
Compatible by Artemide

The Arrival floor lamp was designed by Ludovica + Roberto Palomba as part of the [Artemide Arrival collection](#). With a graceful and dynamic silhouette, the floor light is characterised by three loops that interlace and interact with each other. The structure is made from metal with the integrated LED subtly sitting on the inside, diffused by silicone strips.

The Arrival LED floor light can be used in a wide variety of settings to provide ambient and functional lighting and is available in 2 colours, gold or matt black. The LED floor lamp also comes with a dimmer switch and can also be controlled by the Artemide App which allows you to create specific lighting situations and palettes.
