PRODUCT DESCRIPTION

Designer: BIG

Gople Floor Lamp by Artemide

The Gople floor lamp consists of a glass lampshade and a metal structure, allowing for a modern and mesmerising aesthetic. The shade is made using a tradition Venetian glass blowing technique that combines white and crystal glass to create a gradual effect. The other colour finishes are then created by using a special vacuum deposition process which is sustainable and environmentally friendly.

The Gople floor light is available with 5 shade colour options, white, copper, bronze, blue sapphire and the choice of 3 base colours, white, silver or black. The shade diffuses the light source for a warming glow and also allows the light to escape upwards, providing an ambient illumination for your interior. Use in homes and professional settings for a stylish and chic lighting solution.
