PRODUCT DESCRIPTION

Designer: Enrico Franzolini & Vicente Garcia Jimenez

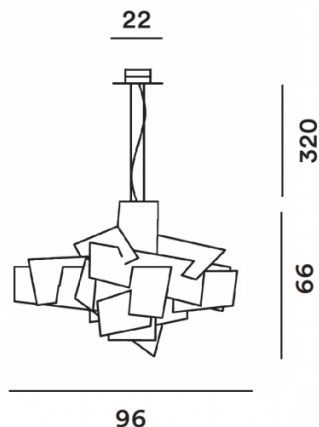

Big Bang Pendant Light by Foscarini

A visually stunning and abstract light, the Big Bang pendant was created from the designers' inspiration from explosion. The shade reinterprets the inspiration with use of multiple parts combined together to create an angular and powerful aesthetic. The pendant plays with light and shadow as the different panels diffuse the light and creates an illumination that glows from all angles of the lampshade.

Available in either a red or white colour finish, the Big Bang pendant light is a stand-out light that will draw the attention in any room. Perfect as a main light in a smaller space, or in multiple in big rooms or high ceilings, this pendant light surely makes a statement and is the combination of art and function. This light is also available with an integrated LED light source and in bigger sizes. Please [click here](#) to explore more versions from the collection.
